SPECIFICATIONS

Furnish and install where shown on plans, one (1) model _____ (simplex) (duplex) packaged boiler feed system as manufactured by Lockwood Products, Inc. (Atlanta, Georgia). The system shall be designed to deliver feedwater to _____ (number), _____ horsepower boiler(s) operating at _____ PSIG. Furnish _____ gallon receiver of heavy steel plate with necessary threaded pipe connections (including unrestrictable vent), mechanical make-up water assembly and gauge glass assembly.

Furnish _____ (number) Type BMX Lockwood boiler feed pump(s), each having a capacity of _____ GPM of 200°F. water at _____ PSIG. Pump(s) shall be of the vertical, centrifugal design with stainless steel shaft and mechanical seal rated at 220°F. Pump(s) (less volute) shall be removable from system without disturbing discharge piping. Each pump shall be vertically mounted and close-coupled to a _____ horsepower, 3500 rpm, _____ volt, _____ phase, 60 Hertz, (open drip-proof) (totally enclosed-fan cooled) motor.

All components of this system are to be provided by one manufacturer for single unit responsibility.

The specifications contained in this bulletin were effective at the time of publishing. Lockwood Products, Inc. reserves the right to discontinue products at any time or to change specifications or design without incurring any obligation.
